

Seeker

*Star-crossed
And ex-ed out
A black hole's
Silent shout
A look at
A look past
Hope begins
Not to last
What is
It is not
Future having
Past got
Chewing gum
Under seat
Sticky mess
Under feet
Cool to comfort
Cold to freeze
A cold
Makes you sneeze
Show me yours
I'll show you mine
Better yes, no
Not to whine
Shoot now
Hold fast*

*Aim well
Shoot your mouth
Too much to tell
The short
And the long
The weak
The strong
It started then
Was spent
All the years
They went
Seek, seek
And you find
Unless your faith
Makes you blind
Shut it in
Or shut it out
Your choice
Faith or doubt
All in all
Backward flow
Or forward go
A step in time
Put you here
For all these words
To hold you near*
